

BEYOND EV PAD P 09 028E

The P 09 028E brake pad is designed for electric cars

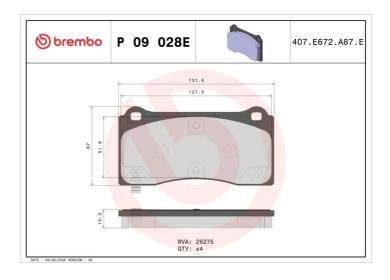

The use of regenerative braking, in electric vehicles, entails a more discontinuous use of the friction brake compared to a car with a combustion engine. For this reason, special attention is required to avoid the corrosion of brake discs and brake pads. The Brembo EV brake pad is coated with a special protective treatment, and when used in combination with Brembo EV brake discs, it avoids early corrosion of the braking system, guaranteeing silent and effective braking.

- Brembo quality
- ECE-R90 certificate
- Comfort
- Durability
- Anti-corrosion

Technical specifications

| EAN code 8020584122761 | Axle Front | Thickness 16 mm |
|-----------------------------------|-------------------------|---|
| Width 132 mm | Height 67 mm | Braking system Brembo |
| Wear indicator Acoustic | WVA number 26275 | Accessories With anti-squeal shim |
