

BEYOND EV DISC 09.9145.1E

Brake disc 09.9145.1E is designed for electric cars

The use of regenerative braking, in electric vehicles, entails a more discontinuous use of the friction brake compared to a car with a combustion engine. For this reason, special attention is required to avoid the corrosion of brake discs and brake pads. The Brembo EV brake disc is coated with a special protective treatment, and when used in combination with Brembo EV brake pads, it avoids early corrosion of the braking system, keeping it effective and safe for longer.

- ✓ Brembo quality
- ✓ ECE-R90 certificate
- ✓ Comfort
- ✓ Durability
- ✓ Dust reduction
- ✓ Anti-corrosion
- ✓ Fastening screws

Technical specifications

EAN code **8020584319475** Diameter Ø **288 mm**

Thickness (TH) **25 mm** Height (A) **49,6 mm**

Brake disc type **Ventilated** Centering (B) **65 mm**

Number of holes (C) **9**

Min. thickness **22 mm**
