

BEYOND EV PAD P 68 033E

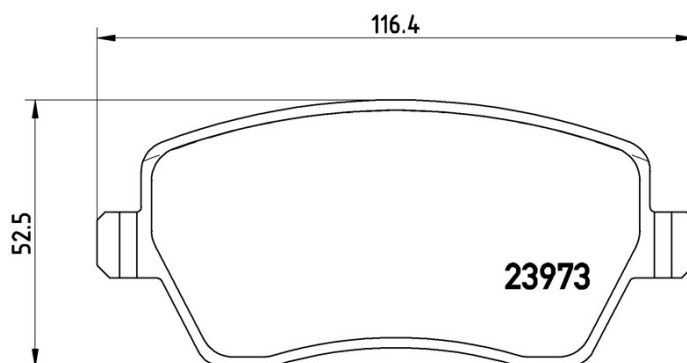

The P 68 033E brake pad is designed for electric cars

The use of regenerative braking, in electric vehicles, entails a more discontinuous use of the friction brake compared to a car with a combustion engine. For this reason, special attention is required to avoid the corrosion of brake discs and brake pads. The Brembo EV brake pad is coated with a special protective treatment, and when used in combination with Brembo EV brake discs, it avoids early corrosion of the braking system, guaranteeing silent and effective braking.

- ✓ Brembo quality
- ✓ ECE-R90 certificate
- ✓ Comfort
- ✓ Durability
- ✓ Anti-corrosion

Technical specifications

EAN code	Axle	Thickness
8020584123355	Front	17 mm
Width	Height	Braking system
116 mm	52 mm	Lucas
Wear indicator	WVA number	Accessories
Without	23973	With brake caliper bolts With anti-squeal shim
